Ordinance No. 2019-05

An ordinance amending subsections (A), (B) and (C) of Section 50.01; adding subsection (C) to Section 50.03 to Chapter 50 WATER of the City of Gregory ordinances.

BE IT ORDAINED BY THE CITY OF GREGORY that subsections (A), (B) and (C) of Section 50.01 be amended as follows and subsection (C) be added to Section 50.03 all of Chapter 50 WATER of the City of Gregory Ordinances.

50.01 Meter Required; Type; Repair

(A) No water shall be sold or distributed unless the same is metered by water meter which shall be furnished by the City of Gregory. Upon discovery of an unmetered water user, the water will be shut off until the water user is metered. The water user shall have the water lines plumbed, to properly install a water meter without any additional plumbing required to install the water meter.

(B) The City of Gregory shall furnish all water meters used for city water service. The location of all water meters must be in a reasonably accessible place. All water meter pits must be approved by the Gregory City Water Superintendent.

(C) In the event that any water meter becomes out of repair, the owner shall allow the City access to repair or replace the water meter in a reasonable time (5 days or less).

50.02 Security Deposit Required

Water users shall pay to the City a deposit, the amount will be determined by City Council Resolution, as security for the payment of the use of water, and users shall not be entitled to the use of city water until the deposit is made; that the deposit or the portion exceeds the water bill then owed, shall be refunded to said users at such time as the use of water is discontinued.

50.03 Connection to Water Mains

(C) The property owner is responsible for the original cost of any service connection to the City's water main, the water line running from that service connection to the property owner's house or structure. This would also include the water shut off or curb stop. The property owner is also responsible for any future repairs or replacement of the water service connection, water line running from that connection to the property owner's house or structure, including the water shut off or curb stop.
